# What is Youth of the Year?

Our signature leadership program equips teens to create a path from their dreams to their futures. They spend months practicing interview skills, honing resumes and cover letters, and crafting a pitch for their vision for the future. The program culminates in our Youth of the Year competition, a chance to share their story and win scholarship money!

You can get involved by sponsoring our celebration event on February 25, 2025! Help bring this event to life and be the first to meet our winner and hear their story.
